Greylongg Website Structure & Premium Design Plan

Menu, collection architecture, page layouts and design system for greylongg.com, benchmarked against Caslay and The Bear House.

1. Summary

Greylongg should rebuild its navigation around how men search on Google (product type, fabric, fit, occasion) and move to a calm, premium look built around its sustainable-fabric story. Everything below was checked on the live sites on 23 Sep 2026.

WHAT'S HOLDING THE SITE BACK TODAY

- **Menu follows internal logic, not search.** "Shop" hides 22 theme collections (NASA, Minion, Garfield, Halloween, Zodiac...) under a flyout called "Artistic Round Neck Tees". Nobody searches that phrase.
- **Mixed signals to Google.** Homepage title targets "Sustainable Polo T-shirts", but the page mostly shows cartoon tees, perfume and bags.
- **Four brands shown as equals** (Carlton London, Greylongg, Richard Paadler, Yorksteadd). It reads like a reseller, not a label.
- **Visual noise.** 5 rotating announcement messages and 10 hero slides, most pointing to the same 3 collections. Product carousels repeat the same cards.
- **Product names are taglines** ("A Statement Piece for Those Who Prioritize Comfort & Fashion"). No "polo", "cotton" or "men" in them, so they can't rank.
- **No shop-by paths** for fabric, fit, colour, price or occasion. Caslay and The Bear House both have these, and they are the long-tail pages that rank.
- **Footer repeats the header**, mixes policies with product links, and has no FAQ, size guide or order tracking.
- **Licensed-character collections** (Disney, Marvel/DC, Minion, Garfield) are a brand risk if licences aren't in place, and they pull the image away from premium.

WHAT CHANGES

- New top menu: **New · Polos · T-Shirts · Graphic Tees · Winterwear · Combos · Fragrance · Corporate Orders**.
- One house story (recycled, bamboo and organic-cotton fabrics). Sub-brands become brand pages and filters, not the headline.
- Keyword-led collection names and URLs (e.g. *Polo T-Shirts for Men*, *Bamboo Polo T-Shirts*, *Oversized T-Shirts for Men*).
- Premium design system: neutral palette, one serif plus one sans, large product photography, one announcement message.
- Separate D2C and B2B journeys: corporate and bulk orders get their own landing page instead of an announcement-bar slot.

2. Competitor structure benchmark

Both named competitors keep the menu short and organise it by product type first, then by fabric or style. Greylongg is the only one leading with themes.

Element	Greylongg (now)	Caslay	The Bear House
Top menu items	Home, Corporate wear, Shop, Brands, Wishlist, Our story, Contact	New Arrivals, Best Seller, Shop by Product, Shop by Category, Bags, Plus Size	Sale, New, Bestseller, Limited Drop, Topwear, Bottomwear, Footwear, Accessories, Rewards
First-level logic	Themes + brands	Product type (Crew Neck, Graphic Tees, Polo, Sweatshirt, Jacket, Hoodie)	Category (Topwear > Shirts, T-shirts, Polos...)
Second-level logic	22 cartoon/theme collections	Fabric: Recycled, Organic Cotton, Quick Dry	Aesthetic (Old Money, Streetwear, Smart Casual), Occasion (Date Night, Travel, 9-to-7), Size, Price, Colour
Collection URL style	/collections/classic-polos, /collections/yoga-t-shirts	/collections/sustainable-polo-t-shirt, /collections/organic-cotton	/collections/polo, /collections/linen-shirts, /collections/under-1499
Product naming	Taglines ("Divina: Style Made Supreme")	Fabric + type + colour ("Organic Polo - Olive Green")	Colour + fabric + fit + type ("Navy Solid Oxford Regular Fit Casual Shirt")
Homepage story	Carousels of cards + 4 sustainability blocks at bottom	Marquee of brand lines, "Polos with a Purpose", impact stats, reviews, B2B collaborations	Shop-by tiles (size, price, colour, aesthetic, occasion), stores, app
SEO footer block	None	"Popular searches" with 18 keyword links	"Popular searches" grouped by category, HTML sitemap
Trust signals	4 generic icons	COD details, 7-day returns, free shipping, customer notes, partner logos	1.5M+ customers, 15k+ pincodes, app rating, stores
B2B	Announcement bar + Corporate page	Collaborations section on homepage	Not shown

WHAT TO BORROW

- **From Caslay:** sustainability as the headline, fabric-first sub-menu, product names that state fabric and colour, impact stats, B2B collaboration logos, "Popular searches" footer.
- **From The Bear House:** shop-by tiles for size, price, colour and occasion; aesthetic collections (Old Money, Smart Casual); descriptive product names; grouped SEO footer; bottom tab bar on mobile.
- **Where Greylongg can win:** it already has bamboo-yarn and recycled-bottle fabric plus a real corporate business. Neither competitor owns *bamboo polo* or *corporate polo T-shirts* in the menu.

3. Recommended main menu

Eight top items, each a keyword people actually type, with mega menus that go product > fabric > fit/style > occasion. Brands move inside the menus, not onto the top bar.

DESKTOP TOP BAR (LEFT TO RIGHT)

New & Bestsellers · Polos · T-Shirts · Graphic Tees · Winterwear · Combos & Gifts · Fragrance · Corporate Orders

Right side icons: Search · Wishlist · Account · Cart. Remove Home, Our Story and Contact from the top bar (move to footer).

MEGA MENU CONTENT

SHOP BY BRAND

sits as a small row at the bottom of the Polos and T-Shirts mega menus: Greylongg · Yorksteadd · Richard Paadler · Carlton London.

MERGE OR RETIRE THESE CURRENT COLLECTIONS

Current collection	Action
Superhero, DC Series, Disney, Minion, Garfield, Movie, Cartoon	Keep only if licensed. If kept, list under Graphic Tees > "Pop Culture" and keep out of the mega menu.
Casual T-Shirts	Merge into Plain T-Shirts (current description talks about cartoons, which confuses Google)
Halloween, Patriotic	Seasonal only: show in menu during the season, keep URL live all year
Artistic Round Neck Tees	Rename to Graphic T-Shirts for Men
Classic Polos	Rename to Plain Polo T-Shirts for Men

MOBILE NAVIGATION

- Hamburger opens a full-screen drawer: top items as large rows with a thumbnail, each expanding into the columns above.
- Add a sticky bottom tab bar (Home · Shop · Search · Wishlist · Cart), as The Bear House does.
- Search opens with suggested chips: Polo T-Shirts, Bamboo Polo, Oversized Tee, Combos, Perfume.

4. Collection & URL architecture for ranking

Each menu link is its own Shopify collection with a keyword URL, a unique H1 and 150–250 words of copy. Filters (size, colour, price) stay as filter parameters and are not indexed.

RULES FOR THE DEVELOPER

- Every old URL in the last column gets a 301 to the new URL (Shopify: Navigation > URL Redirects). Never delete a collection with rankings without a redirect.
- Brand collections stay live (/collections/yorksteadd etc.) because the keyword workbook targets these names.
- Product URLs: rename handles to type + fabric + colour, e.g. /products/bamboo-polo-t-shirt-moss-green instead of /products/crafted-for-the-modern-gentleman-yorksteadd-1123-bamboo-yarn-polo. Add 301s from old handles.
- Product titles follow: Brand + Fabric + Fit + Type + Colour, e.g. "Yorksteadd Bamboo Regular Fit Polo T-Shirt – Moss Green". The tagline moves into the description.
- Remove ?lfgid= tracking parameters from internal links (seen on homepage perfume links).
- Note: keyword volumes could not be pulled today (Search Console is no longer connected in Windsor, Semrush MCP not on plan). Priorities are based on competitor URL targeting and the 16 Sep keyword workbook; recheck once GSC is reconnected.

5. Homepage layout (top to bottom)

Twelve sections, down from the current mix of 3 duplicate carousels. Each section has one job and one button.

#	Section	What goes in it	Copy to use
1	Announcement bar	One static message, no rotation. Offers move to the cart drawer.	Free shipping across India · Easy 7-day exchange
2	Header	Logo centred on desktop, 8-item menu below it, icons right. Sticky, shrinks on scroll.	—
3	Hero	One full-width lifestyle image or 6-second video (model in bamboo polo, natural light). Max 3 slides, auto-play off. Separate mobile crop at 4:5.	H1: **Polos that feel as good as they look.** Sub: Made from bamboo yarn, recycled bottles and organic cotton. Buttons: Shop Polos · Shop T-Shirts
4	Category tiles	6 square tiles with model photos: Polos, T-Shirts, Graphic Tees, Combos, Fragrance, Corporate. Horizontal scroll on mobile.	Label only, no extra text
5	Bestsellers	One product grid, 8 items, tabs: Polos / T-Shirts / Graphic. Replace the current 20-card carousel that repeats.	Heading: **Most loved this month**
6	Fabric story	3 columns, each with a macro fabric photo and one line. Links to fabric collections.	**Bamboo** – Softer than cotton, stays cool. **Recycled** – 8 plastic bottles in every tee. **Organic Cotton** – Grown without harsh chemicals. (Confirm the bottle number with the client before publishing.)
7	Shop by style	4 wide tiles: Old Money, Office Ready, Street, Weekend.	**Find your fit for every day**
8	New arrivals	4-item grid + View all	**Just dropped**
9	Combos & gifts banner	Split banner: combo pack left, tee + perfume gift set right	**Build your 3-pack. Save more.**
10	Reviews	Real customer reviews with photo, name, city and product bought. Pull from Judge.me/Loox. Show star average + count.	**What our customers say**
11	Corporate strip	Dark band with client logos (only with permission), one line, Get a Quote button	**Custom polos for teams of 25 to 5,000.** (confirm MOQ)
12	Our brands	4 brand logos in one row, greyscale, colour on hover	**The Greylongg family**

REMOVE FROM HOMEPAGE:

duplicate image rows (the same 8 category images appear 4 times in the code), the fragrance product list with ?lfgid links, the "Built for comfort" block, the 12-post blog carousel (keep 3 latest in a small row above the footer), and the 4 generic trust icons (replace with the trust row in the footer).

HOMEPAGE SEO BLOCK:

a collapsible 250-word text above the footer: "Buy sustainable polo T-shirts and T-shirts for men online in India", linking to the 6 hubs and 6 fabric collections.

6. Collection page and product page layout

COLLECTION PAGE

Zone	Content
Top	Breadcrumb (Home > Polos > Bamboo Polos) · H1 · one 2-line intro (40 words max)
Sub-collection chips	Horizontal pill row linking to siblings, e.g. Plain · Printed · Bamboo · Recycled · Full Sleeve
Toolbar	Filter button (left) · product count · Sort (Bestselling default)
Filters	Size, Colour (swatches), Fabric, Fit, Sleeve, Price, Brand. Filter pages set to noindex via robots.
Grid	4 columns desktop, 2 mobile. Image ratio 3:4, second image on hover. Card shows: title, price, % off, colour swatches, rating. No "Vendor:" label.
Mid-grid banner	After row 3: fabric or combo promo tile
Bottom	Pagination or "Load more" · 200-word SEO copy (collapsed after 3 lines) · 4–5 FAQs with FAQ schema · links to related collections

PRODUCT PAGE

Zone	Content
Gallery (left, 60%)	6–8 images: front, back, side, fabric close-up, model full-length, lifestyle, size chart image. Optional 10-second video. Zoom on click.
Buy box (right, sticky)	Brand (small caps) · Title (Brand + Fabric + Fit + Type + Colour) · star rating + count · price, MRP struck, % off · colour swatches with names · size buttons + Size Guide link + "Model is 6'0", wears M" · Add to Cart (full-width, dark) + Buy Now · delivery date by pincode · COD / 7-day exchange / free shipping icons
Offer strip	One line under the price: "Buy any 3, get a perfume free"
Accordions	Description (the current tagline copy goes here) · Fabric & Care (GSM, composition, wash) · Size & Fit · Shipping & Returns · Why this fabric
Below the fold	Complete the look (3 items) · Customer reviews with photos · FAQs (3–4 per product type) · Recently viewed · You may also like
Mobile	Sticky Add to Cart bar at bottom showing price and selected size

CONTENT EVERY PRODUCT NEEDS BEFORE LAUNCH:

fabric composition in %, GSM, fit type, sleeve, neck, care instructions, country of origin, and at least 6 photos on a consistent background (#F5F3EF or pure white).

7. Premium design system

The look should feel like a quiet, confident menswear label: warm neutrals, lots of white space, big photos, very little text on images. The brand name already says "grey"; the palette leans into it.

COLOURS

Role	Name	Hex	Use
Primary text / buttons	Charcoal	#1F1F1F	Headings, body text, primary buttons, header
Background	Off-white	#FAF9F6	Page background
Surface	Stone	#F0EDE7	Cards, product image background, section bands
Brand grey	Greylongg Grey	#8A8A85	Secondary text, borders, icons
Accent	Moss	#4F6B4A	Sustainability badges, links, fabric story (ties to eco message)
Sale	Brick	#B5442F	Discount % only; never for large areas
Lines	Mist	#E3E0DA	Dividers, input borders

Remove bright green leaf graphics and AI-style illustrations from the current sustainability blocks; replace with real fabric macro photos.

TYPOGRAPHY

Use	Font	Size desktop / mobile	Weight
Display (hero, section titles)	Cormorant Garamond or Playfair Display	56 / 34 px	500
H2	same serif	36 / 26 px	500
H3, product titles	Inter or DM Sans	18 / 16 px	500
Body	Inter or DM Sans	16 / 15 px, line-height 1.6	400
Labels, menu, buttons	Inter, uppercase, letter-spacing 0.08em	13 px	600

Both fonts are free on Google Fonts. Max two families on the whole site.

LAYOUT & SPACING

- Max content width 1320 px; side padding 48 px desktop, 16 px mobile.
- Spacing scale: 4, 8, 16, 24, 32, 48, 64, 96 px. Sections separated by 96 px desktop, 56 px mobile.
- Square corners or 2 px radius on buttons and cards (rounded pills read cheap for this category).

BUTTONS

- Primary: charcoal fill, off-white text, 48 px tall, uppercase label. Hover: moss fill.
- Secondary: 1 px charcoal outline, transparent fill.
- Text link: underline on hover only.

IMAGERY

- One photographer, one lighting style: soft daylight, stone or linen backdrops, Indian models 22–35.

- Product shots on #F0EDE7, same crop and model height across a collection.
- No text baked into banners (hurts SEO and mobile readability). Headlines are live HTML over the image.
- WebP, max 200 KB per image, lazy-load below the fold.

DETAILS THAT SIGNAL PREMIUM

- Thin 1 px dividers instead of boxes and shadows.
- Discount shown as small brick text, not big red badges on every card.
- Micro-animation only on hover (image swap, underline); no auto-scrolling marquees or pop-ups in the first 10 seconds.
- Consistent icon set (Lucide or Phosphor, 1.5 px stroke).

8. Footer, trust pages and the B2B split

FOOTER (4 COLUMNS + 2 ROWS)

Shop	Help	Company	Stay in touch
Polo T-Shirts for Men · T-Shirts for Men · Graphic T-Shirts · Combos · Perfumes for Men · Gift Card	Track Order · Size Guide · Shipping · Returns & Exchange · FAQs · Contact Us	Our Story · Our Fabrics · Corporate Orders · Blog · Careers	Newsletter signup ("Get ₹100 off your first order") · WhatsApp · Email · Instagram, Facebook, YouTube

- Row above columns: trust strip with 4 icons – Free shipping · COD available · 7-day exchange · Secure payment.
- Row below columns: **Popular searches** block (like Caslay and The Bear House) with 15–20 keyword links grouped as Polos / T-Shirts / Graphic / Fragrance.
- Bottom bar: © 2026 + company legal name, registered address and GSTIN (both competitors show a full address; Greylongg shows only an email), payment icons, Privacy · Terms · Refund.
- Delete the duplicated "Shop" column that repeats the header, and the second "Return & Exchange" link.

TRUST PAGES TO BUILD OR REWRITE

Page	What it must contain
Our Story	Founder name and photo, year founded, where products are made, why sustainable fabrics. Real photos only.
Our Fabrics (new)	One section per fabric (bamboo, recycled polyester, organic cotton, anti-wet): what it is, benefits, care, certifications if any. Links to each fabric collection. Strong AEO/GEO page.
Size Guide (new)	Chest, length, shoulder in cm and inches per fit; how-to-measure image. Linked from every product.
FAQs (new)	20–25 questions: delivery time, COD, exchange, sizing, fabric care, bulk orders. FAQ schema.
Contact	Phone, WhatsApp, email, address, hours, embedded map.
Track Order	Shiprocket/Clickpost tracking link in header account menu and footer.

B2B / CORPORATE SPLIT

The 90-day plan is to separate D2C and B2B. On the website that means:

- One landing page **/pages/corporate-polo-t-shirts** replacing Corporate wear, Get Custom Quote and Bulk Inquiry (301 the old three).
- Page flow: hero ("Custom polo T-shirts for your team") → fabric options → customisation (embroidery, print, colours) → MOQ and lead time → client logos and case studies → quote form (name, company, quantity, product, deadline, logo upload) → FAQs.
- Remove the bulk-order line from the announcement bar; keep "Corporate Orders" as the last top-menu item and a strip on the homepage.
- Send form leads to email + WhatsApp, and track the form submit as a GA4 conversion.
- Later phase: sub-pages for Custom Logo T-Shirts, Corporate Gifting, Event T-Shirts, each targeting its own keyword.

9. On-page SEO rules per page type

Page type	Title tag pattern	Meta description	H1	Schema
Homepage	Sustainable Polo T-Shirts & T-Shirts for Men Online | Greylongg	Bamboo, recycled and organic cotton polos and tees for men. Free shipping, COD and easy exchange across India.	Polos that feel as good as they look	Organization, WebSite (with SearchAction)
Hub collection	Polo T-Shirts for Men – Buy Online in India | Greylongg	Varied per page, 140–155 characters, includes fabric + offer	Polo T-Shirts for Men	CollectionPage, BreadcrumbList, FAQPage
Fabric collection	Bamboo Polo T-Shirts for Men – Soft & Breathable | Greylongg	Varied per page	Bamboo Polo T-Shirts	CollectionPage, BreadcrumbList, FAQPage
Product	Brand Fabric Fit Polo T-Shirt – Colour | Greylongg	Fabric, fit, colour, price hook	Same as product title	Product (price, availability, brand, aggregateRating, review), BreadcrumbList
Corporate	Custom Corporate Polo T-Shirts with Logo | Greylongg	MOQ, customisation, lead time	Custom polo T-shirts for your team	Service, FAQPage
Blog post	Question-style title, 55–60 chars	Direct answer in first 150 chars	Question	Article, FAQPage where relevant

INTERNAL LINKING

- Every blog post links to 2–3 collections with keyword anchors ("bamboo polo T-shirts", not "click here").
- Every product links to its hub, its fabric collection and 4 related products.
- Homepage links to all priority-1 collections within the first 3 scrolls.

TECHNICAL MUST-DOS

- One H1 per page (the current theme repeats product titles as H3 twice per card; fix card markup).
- Alt text on every image: product type + colour + brand (current homepage has many empty alt attributes).
- Canonicals: products canonical to /products/handle, not /collections/x/products/handle.
- Noindex filter and sort URLs; keep /collections/all out of the menu.
- Core Web Vitals targets: LCP under 2.5 s on mobile, CLS under 0.1. Limit apps (Whatmore Live, wishlist, reviews) and defer their scripts.
- Submit updated sitemap in Search Console after redirects go live, and reconnect GSC in Windsor so we can track rankings on the new URLs.
